ARTWORK GUIDELINES & BEST PRACTICES

- Advertising featuring unsafe substances, illicit or recreational drugs, violence, weapons, full or partial nudity, adult content or situations, or alcohol use may be subject to additional review by Westfield. Westfield reserves the right to reject and/or require revision of any advertising material at any time. [Reference our Advertising Guidelines](#) for category rules and creative consideration on what URW may deem violent, lewd, or offensive material that will not be approved to run.
- Avoid the use of predominantly white or pastel backgrounds. They should not account for more than 30% of the background due to light colors appearing harsh and causing eye aversion. This is highly discouraged especially in outdoor center locations as there is competition with sunlight. Content may be rejected, so ask for approvals prior to finalizing artwork via USWBVCreative@urw.com
- Don't let motion interfere with legibility.
- NO RAPID FLASHING ELEMENTS
- Avoid using more than 2 typefaces. San-serif is more legible than Serif on digital formats.
- For directional information on creative, utilize the nearest department store (i.e. Level 1, Near Nordstrom). Messaging or locator tags that push customers off-premise will not be accepted.

- Use dark or saturated colors with light colored text vs. white backgrounds with dark text for best readability. More contrast = more visible.
- Test tonal variance, contrast and legibility by converting your creative to greyscale & view.
- Rely on a strong visual message vs. lengthy copy. Brevity is key. Industry standard is to establish your message with 7 or fewer words.
- Have a clear call to action and utilize visual hierarchy.
- QR Codes are a proven effective way to increase engagement.
 - Placement: Middle of top third of creative for maximum performance
 - Size: At least ¼ of the creative
 - Screentime: We recommend the QR code receives coverage on the entire length of the spot.

GUIDELINES

GENERAL GUIDELINES & SUBSTANTIATION

All material submitted for placement on or within Westfield's media, experiential or event assets or other managed media platforms will be reviewed and must conform to all applicable governmental laws and regulations as well as the standards and policies of Westfield.

All commercial material(s) (eg: printed or digital advertisement and branded exhibits) must be submitted in advance for approval and will be subject to [Westfield Advertising Standards and Guidelines](#) and can be sent to USWBVCreative@urw.com. A minimum of three weeks lead time is required. Media proofs, concepts or renderings are required for review based upon the type of program planned at Westfield. On occasion, one or more elements may be required for approval (e.g. scaled renderings of experiential space and media proofs for integrated campaigns). Submission of the proofs shall constitute the agency/client warranty to Westfield that all elements have been cleared for the assigned use (eg: place based advertising, digital, experiential campaigns) with respect to intellectual property rights: this includes, but is not limited to, rights of privacy and publicity and master, mechanical, performance and synchronization rights for music (when applicable).

All material submitted for approval for placement within Westfield's centers or media platforms is kept strictly confidential within Westfield. Proprietary information subject to Westfield review shall not be disclosed with any parties outside the company.

The basic principles of advertising acceptance are: advertising should be honest and in good taste, claims should be substantiated and qualifying information about the attributes or use of a product should be disclosed whenever qualifying information is required to avoid misleading consumers.
